

Lena Stamenković

She was born in Zaječar on June 1, 2004.

Even as a baby she displayed interest in music. She reacted to the first tone she heard, she sang and danced to the rhythm of music.

She sang for the first time at the christening of her brother Jakov. She sang with great ease and everyone was fascinated by her voice and her moves.

For years her interest in music grew. She enrolled at the Elementary Music School in 2012. Now she attends the fourth grade, plays the piano and sings in a choir.

She is from an artistic family. Her father Milan plays the trumpet and sings with a band, and her grandfather was a painter.

She likes different music genres, from pop and r'n'b to rock and she is always open for new things. Her favorite performers are Celine Dion, Alicia Keys, Mariah Carey, rock band Queen, Michael Jackson and others.

She participated in the great talent show for children singers, where she took the fourth place. She enchanted the public with her charm, spontaneity and honesty. Not only does Lena have an exceptional voice and talent, she also exudes positive energy. She sings with authentic emotion. For her, this contest was fun and play, and exceptional experience, a chance to meet new friends.

Lena is a creative and multitalented person. She draws, knits, makes hairdos, and creates different objects from interesting materials. She is also good at acting.

The fact that a light bulb exploded while Lena was singing tells a lot about the power of her voice. Maybe it was a coincidence, but just as she was hitting the highest note, the bulb broke causing a blackout in their flat.

Lena is a positive and a happy child, and a very determined one at that. She follows her artistic path, having fun along the way. She sets herself goals and achieves them as if they were levels in a game.

She wants to share her talent with others, to let everyone hear her sing.
